Understanding Bloodborne Pathogens & Your Organization's Exposure Control Plan (Healthcare) v2

Reference Code:

BF15101

Overview:

This course is designed to summarize the workplace exposure control plan, as it relates to bloodborne pathogens and other potential hazards. With updated content, it will help you understand the wide variety of risk factors and types of hazard exposures in healthcare. Minimizing your exposure and knowing what to do if an exposure occurs, helps you, your coworkers, and your patients.

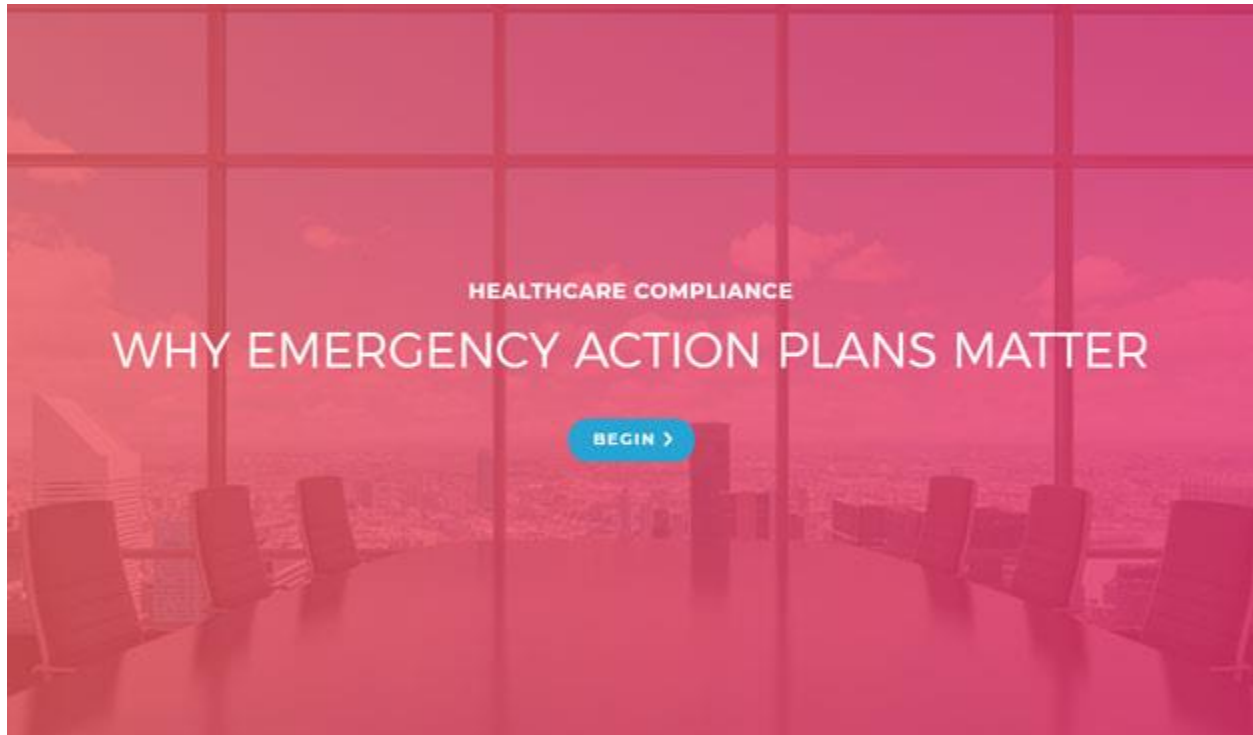

Key differences this year:

- All new graphics and mobile-friendly design
- Added interactivity and resources to aid in learning
- Reviewed regulations and terminology by subject matter expert and lawyer

Course Length:

30 minutes

Why Emergency Action Plans Matter (Healthcare) v2

Reference Code:

BF15102

Overview:

The news in 2017 and 2018 was filled with stories of various natural disasters; wildfires, floods, tornadoes, hurricanes, earthquakes, and volcanoes. Emergency preparedness is essential in the healthcare environment to ensure measures are in place to safeguard patients and staff in the event of an emergency in the workplace. Knowing how to respond to disasters and emergencies by understanding your workplace's emergency action plan will help healthcare workers to act timely to ensure the safety of patients and staff.

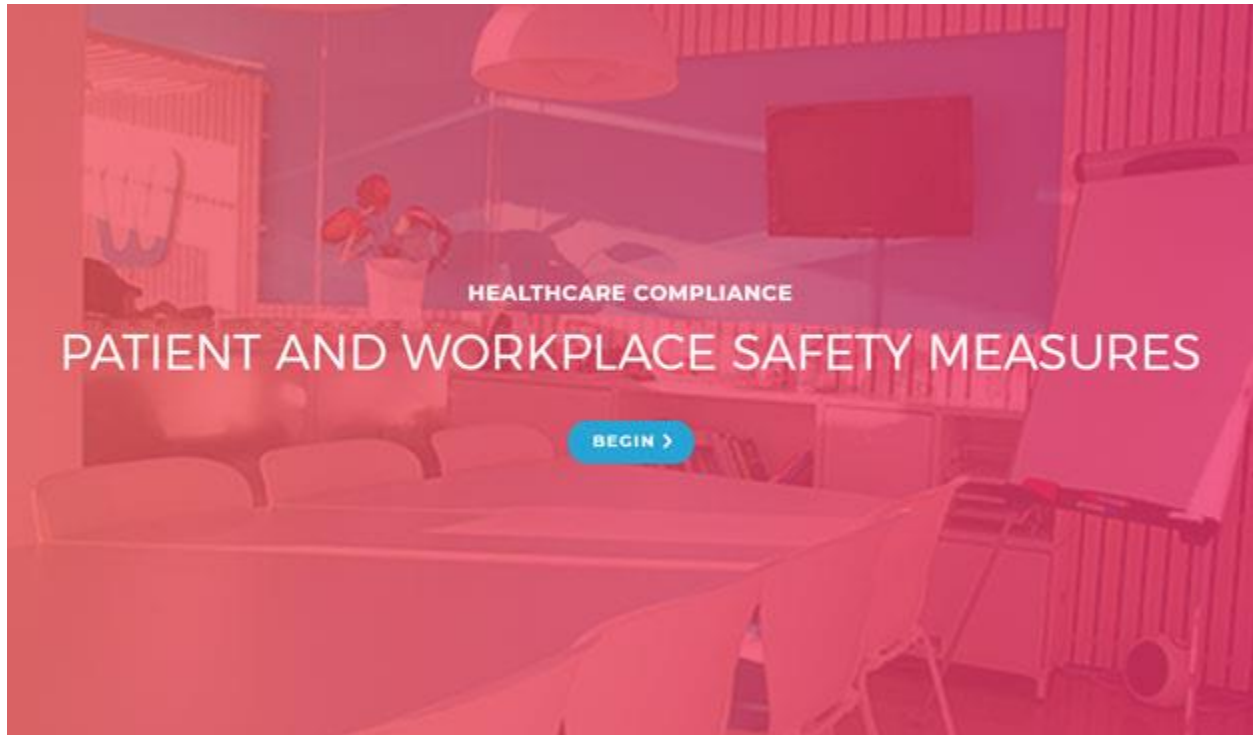

Key differences this year:

- All new graphics and mobile-friendly design
- Added interactivity and resources to aid in learning
- Reviewed regulations and terminology by subject matter expert and lawyer

Course Length:

30 minutes

Patient and Workplace Safety Measures (Healthcare) v3

Reference Code:

BF15103

Overview:

This course will introduce you to various workplace hazards and appropriate measures that you should use to ensure safety of patients and staff. In emergencies, patients will expect healthcare workers like you to be able to navigate them quickly and safely away from hazards.

Key differences this year:

- All new graphics and mobile-friendly design
- Added interactivity and resources to aid in learning
- Reviewed regulations and terminology by subject matter expert and lawyer

Course Length:

30 minutes

Steps to Minimize Workplace-Related Injuries (Healthcare) v2

Reference Code:

BF15104

Overview:

This course will discuss the number of serious safety and health hazards healthcare workers face every day. It's crucial to be mindful of working in an environment that not only reduces the healthcare related hazards like bloodborne pathogen exposure, but also minimizes injuries related to basic workplace hazards, such as ergonomics.

Key differences this year:

- All new graphics and mobile-friendly design
- Added interactivity and resources to aid in learning
- Reviewed regulations and terminology by subject matter expert and lawyer

Course Length:

30 minutes
